Guide to Pier Permit Application

rev 6/30/2018

1. You may download this form from the Lake Management District Web page: <http://www.lauderdalelakedistrict.com>.
2. Complete the form or contact the Inspector and complete the form with his guidance as needed.
3. Sketches of the current piers and proposed piers are required as indicated on the form.
4. A printed copy of the site from the Walworth County computer mapping system- <http://gisinfo.co.walworth.wi.us/map3x/index.html?config=config/walco.xml> or a current survey must be included. This site is available to anyone. If the applicant prefers, the Inspector can provide a copy for an additional \$10.
5. The completed Application should be submitted to the Inspector with the \$50.00 fee. The Inspector will determine whether the pier is in compliance with the Town Pier Ordinance. If the Application is in compliance, the Inspector will sign the document and the applicant can proceed with building the new pier(s).
6. If the Application is not in compliance with the Town Pier Ordinance, the applicant can make the necessary changes to bring the Application within compliance or request a hardship variance from the Town Board. If the applicant wishes to request a hardship variance, he/she will first submit the application and pay the application fee.
7. It is the responsibility of the applicant to contact the Town Clerk (262) 495-8200 and request to be put on the agenda of a future Town Board Meeting. The applicant will be expected to present his/her case to the Board using whatever visual aids necessary to convey the hardship message. The Town Board may choose to allow or deny the variance for a pier that is not in compliance with the Town Ordinance.
8. When the pier construction is completed, the applicant will contact the Inspector who will visit the property and determine whether the pier is consistent with the application or any variance approved by the Town Board. If all is in compliance, the Application will be filed for future reference. If the pier is not constructed in compliance, the applicant will be notified by the Inspector. If, after notification by the Inspector, the pier is not brought into compliance within 30 days, the matter will be turned over to the Town Board to determine the plan for enforcement and penalty.

For use by Pier Inspector

Pier Inspector's Signature: _____

Date notified by applicant that completed pier is ready for inspection: ___/___/___

Date of final inspection: ___/___/___ Has the pier been constructed in accordance with the Application? ___

If Yes, date applicant notified of completed inspection ___/___/___. Copy of Application filed at Town Hall.
